

# A cut above the rest.

**We have designed a range of modern bathroom accessories that are functional, practical and offer ease of installation.**

Combined with the advantage of having extra fixing points, MR Master Rail will give you strength unlike any other towel rail available. MR Master Rail bathroom accessories also blend stylishly with today's modern door furniture.

Both Single and Double End Pillars are available in pairs and our Stainless Steel Chrome Plated Rod comes in four different lengths. All End and Centre Pillars suit 19mm Chrome Rod giving you the ability to customize the desired length of your towel rail. If you require an extremely long towel rail our matching Centre Pillar may be added as a central support between End Pillars.

All MR Master Rail products are fixed directly to the wall without the need for brackets or grub screws, giving them a strong and more permanent fit. All products have four fixing points that are concealed with a matching removable cover plate to achieve a fixing free appearance.

- Suits 19mm Chrome Rod
- Customise to any length
- No brackets or grub screws
- Fully concealed fixings
